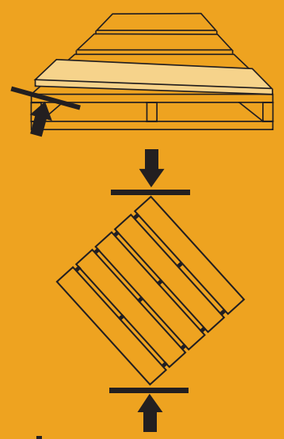
The Curriculum Demanding, The Tests Comprehensive. The Results Decisive.

The all new **Pallet Plus**™ is the latest in a series of premium performing fasteners from Bostitch®. Rigorous tests were performed at the critically acclaimed Center For Unit-Loaded Design at Virginia Tech University. The overwhelming results confirmed what our engineers already knew: The **Pallet Plus**™ is going to revolutionize the pallet industry.

The Bar Has Been Raised.

Bostitch®...We pride ourselves on our ability to develop new and exciting fastener technology not only for today but for the next 100 years.

The Innovation Continues.



End Board Impact Resistance

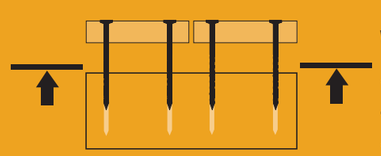
- **264% Greater** resistance to pallet failures caused by forklift impact

Diagonal Rigidity

- **17% Increase** in diagonal rigidity of pallet

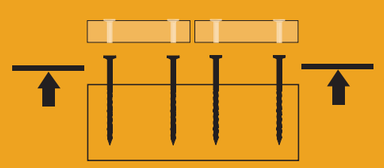
Shear

- Oak-**52% Greater**
- Poplar-**41% Greater**
- Spruce, Pine, Fir-**40% Greater**



Withdrawal

- Oak-**38% Increase**
- Poplar-**37% Increase**
- Spruce, Pine, Fir-**35% Increase**



Pull Through

- Oak-**22% Greater**
- Poplar-**14% Greater**
- Spruce, Pine, Fir-**25% Greater**

Test Results Reflect Increase In Performance Compared To Standard 2" x .099" Screw Shank Pallet Nail.

Pallet Plus™

Revolutionary Nail Technology.
Ultimate Pallet Performance.

Pallet Plus™ The Results Are Decisive

Fat Head
- 19% larger head
- Maximizes shear and pull through performance
- Foundation for greater pallet end board impact resistance and diagonal rigidity

Industry Leadership
- International provider of collated fastener solutions to the pallet industry
- Serving industry since 1896
- Introduced first coil nailer and nails in 1965

3 Patents Pending
- Innovative nail design
- Ultra performance
- Recognized product differentiation

Fastener Research and Development
- World class fastener R&D laboratories in East Greenwich, RI
- Design team boasts over 85 years of combined fastener development experience
- Dedicated pallet testing facility

Royal Purple Coating
- Maximizes depth of drive
- Polymer coating composition optimized for maximum anti-withdrawal performance
- Colored for easy identification

"No Voids" Shank Technology
- 100% deep screw in active plane area
- No voids for collation wire
- Optimizes withdrawal performance

Made to Fit
- Bostitch N70CB, N80CB, N86C

Precision Point
- Available in Blunt Diamond and Blunt Chisel
- Reduces splitting in hardwoods
