

## Single Face Corrugated Capabilities

### SINGLE FACE CORRUGATED

Surface Guard has over 100 years of combined experience in providing superior single face corrugated products. Single face corrugated is a versatile packaging, cushioning and promotional material that has been utilized in a wide range of industrial, decorative, specialty and structural applications. Throughout the long life of single face corrugated it has demonstrated its versatility time and time again. SGI is experienced in supplying a wide range of customers with single face materials tailor-made to their unique requirements. So whether your needs are for padding, protection, promotion or decoration; SGI can provide you complete single face solutions. Contact us for more information, samples or a quote!

Surface Guard does our part for the environment. Recycled content papers are used in the construction of our single face corrugated products. You can help as well by recycling SGI corrugated products with your local recycling center.

#### Flutes:

- **A Flute:** 3/16" flute height provides crush resistance, stacking strength and shock absorbency.  

- **B Flute:** 1/8" flute height provides more rigid support and higher resistance to flat crush than A flute.  

- **E Flute:** 1/16" flute height provides the highest resistance to flat crush while also providing an outstanding printing surface for direct print or litho-lamination.  

- **Wave Flute:** Unique fluted pattern creates an attractive, eye appealing and versatile packaging material.  

#### Paper Grades:

- Standard paper grades - 18#, 26#, 33#
- Want recycled paper? We can do that! Up to 100% recycled content grades are available.
- Specialty grades are available upon request (*Contact us for more information and minimums*)

#### Colors:

- Kraft, Bleached White, Whitetop, & Colors available
- We can flexo-print our liners and mediums in your custom colors  
(*Contact us for more information and minimums*)
