

Fully Automatic Glue Sealer
Up to 20 cases per minute

Case Sealer
BEL 270

Fully Automatic Hot Melt Case Sealer

Squareness Assured
BEL's innovative and powerful Uni-Drive system synchronizes conveyor belt speed, eliminating case skew, so that cases leave the machine squarely taped.

Ultra Safe Flap Folder
Snap Folder flap-folding technology safeguards personnel by eliminating the traditional "flap kicker," which can cause serious injury and the need for expensive machine guarding.

No Gap Closure
BEL's exclusive "no gap" static compression system seals RSC cases tightly and squarely, preventing dust and light from getting inside the box.

Easy Case Change
The BEL 270 is user-friendly, enabling the operator to make box size changes from either side of the machine quickly and easily in 30 seconds or less.

BEL 270 Fully Automatic Hot Melt Case Sealer

BEL 270 Features

- BEL's revolutionary Snap Folder design safely folds flaps and eliminates the use of flap kickers, which can cause injuries.
- High tensile anodized aluminum C-Beam frame provides superior strength and corrosion resistance.
- The paint-free finish guards against contamination from flaking or peeling paint.
- Magnetic motor starter protects operator from accidental re-starts after a power interruption and protects motor against power overload.
- Uni-Drive squaring mechanism means more presentable cases.
- Quick, open-top pulleys enable drive belts to be replaced in minutes, reducing maintenance and downtime.
- Automatic case indexing with adjustable timer for steady flow and throughput.
- Unique soft-compression system provides closures without gaps, for dust and light protection.

Complete Solution

BEL 505 Case Former

The BEL 505 improves efficiency and ergonomics. Inserting a case into the BEL 505 results in all four bottom flaps being automatically folded, leaving hands free to pack.

Wexar WF20 and WF30 Case Former

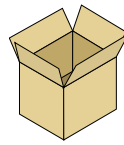

The WF20 and WF30 fully automatic case formers continuously and effortlessly open and form cases, presenting them ready for packing.

PD50 Accumulation Table

This bi-directional product conveyor ensures items are conveyed continuously and precisely to the operator. It has an adjustable tabletop and variable speed for better accumulation.

How the BEL 270 Works

The BEL 270 seals RSC cases.

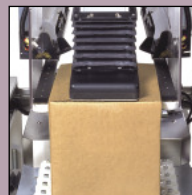

1 Quick Change Handle

A quick three step size change with simple hand wheel and clamp adjustments, enable the BEL 270 to seal a wide range of case sizes.

2 Snap Folder

Cases are automatically folded with BEL's safe snap folding technology. This protects personnel by eliminating the traditional "flap kicker".

3 No Gap Glue Seal

The BEL 270's compression system ensures cases are sealed with a gap free closure, providing superior dust and light protection.

BEL 270 Specifications

Case Size Range	Length	Width	Height
Minimum (top sealing only)	8" 203 mm	6 1/2" 165 mm	6 1/4" 159 mm
Maximum (top sealing only)	20" 508 mm	15" 381 mm	15 3/4" 400 mm
Minimum (top and bottom sealing)	8" 203 mm	8 1/2" 216 mm	5 1/4" 133 mm
Maximum (top and bottom sealing)	16" 406 mm	15" 381 mm	14 1/4" 362 mm
Infeed/Outfeed Height (with adjustable foot pads)			
Minimum	Top only: 20 1/2" (520 mm) Top and bottom: 21 3/4" (552 mm)		
Maximum	Top only: 28 3/4" (730 mm) Top and bottom: 30" (762 mm)		
Machine Speed: Up to 20 cases per minute.
