

# Identification Made Easy

*With Stock Prints From Laminations*

**Stock print options from Laminations, available in your choice of 23 standard colors, are ideal for color coding products or inventory.**

## **Create Your Own Color Code System**

Circle the colors you are using below and write in what each designates. Then hang this sheet in your warehouse to use as a reference.

To see how these colors will look on Laminations' VBoard, please refer to Laminations' color cards.

**CautionBoard®**, printed with bold diagonal stripes, is highly visible in the warehouse and reminds workers to handle products with care.

**IdentiBoard™**, printed with a thinner, vertical stripe, has ample white space in the center to write or stamp additional product information. It can also be custom-printed with a company logo or message for a minimal additional charge.

Add color to pallet loads for quick identification and simpler inventory processing.

## **Use these products to:**

- **Control Inventory** — a unique color of edge protection for each month or season makes it easy to see how long your products have been in the warehouse.
- **Identify Products** — a different color edge protector for each product SKU simplifies the inventory process and facilitates order fulfillment.
- **Identify VBoard® Grades** — designating a separate color for each grade of VBoard you use helps employees find the right size quickly.
