SCRAIL® *The Faster Fastener™*

SCRAIL®

- Use almost anywhere ordinary screws are used
- Saves time and labor costs
- TWICE as fast as collated screws, EIGHT times faster than bulk screws
- Easily adjusted, quickly removed
- Dramatically increased holding power vs. nails
- Suitable for FASCO tools and all other common tool brands

20° Plastic strip SCRAIL®

- 2" – 3" (depending on tool)
- special plastic blends available for different climate conditions

15° Wire coil SCRAIL®

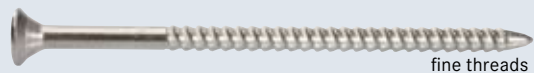

- 1¼" – 2½" (depending on tool)
- most economical solution
- improved withdrawal values

15° Plastic sheet coil SCRAIL®

- 1¼" – 2½" (depending on tool)
- processing without any residues
- plastic can be recycled

DIFFERENT THREAD TYPES

- **Fine thread:** inner diameter .113, outer diameter .120
For best withdrawal values
- **Coarse thread:** inner diameter .113, outer diameter .134
Provides for best removal performance
- **BeckDeck™ double thread:** inner diameter .120, outer diameter .138
Designed for composite materials to prevent unsightly cratering or mushrooming

fine threads

coarse threads

BeckDeck™ double threads

DIFFERENT HEAD TYPES

torx philips pozidrive square (Robertson)

SURFACES

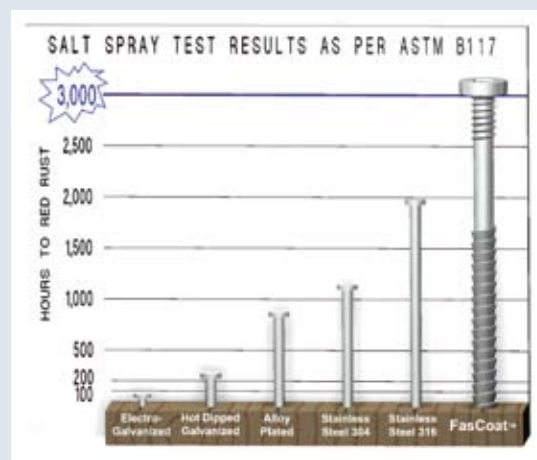

- bright
- electro-galvanized
- painted
- **FasCoat™**
- stainless (AISI 304 and 316)
- painted
- saddle brown

- winchester grey

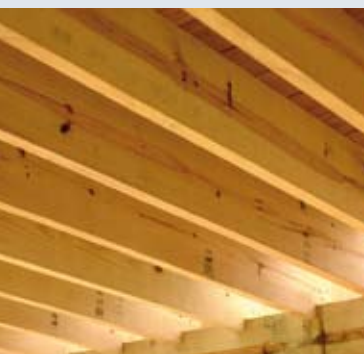

color matching (to most manufacturers' assortments) with more than 2,000 colors available.

FasCoat™ finish: to withstand more than 3,000 hours in the salt spray test
