

# HydroShield™

## VBoard® With a Moisture-Resistant Coating *Perfect for Wet and Humid Environments!*

HydroShield features a special water-resistant coating that helps maintain its protective integrity in environments where water or high humidity levels are present. The coating causes water and moisture to bead up and roll off before they can be absorbed into the product. This unique feature makes HydroShield particularly effective for edge protection and pallet stabilization in shipping and storing produce and other food perishables. HydroShield's moisture-resistant coating also can be applied to other Laminations products.

*A special coating prevents water and moisture from being absorbed, allowing HydroShield to retain its structural strength.*

- Ideal for protecting and stabilizing pallets of produce and perishable foods
- Repulpable coating means HydroShield is 100% recyclable
- Outside can be printed with your company's logo or message
- Available in white or kraft
- Standard sizes available in lengths up to 300 inches and in a variety of calipers
- Even leg length sizes include 2"x2", 2.5"x2.5" and 3"x3"
- Offset leg length sizes include 1"x3", 2"x3" and 2"x4"

*HydroShield resists water and high humidity, making it the perfect edge protection solution for shipping and storing produce.*

*Shields Against Damage*
