

Integrated Form, Pack & Seal Systems

WFPS 5150 Combo

Case Packing & Sealing System

One operator working with a BEL505/150 case packing & sealing system can do the work of three people. This system provides improved productivity, ergonomics, and reduced costs - saving valuable floor space by eliminating cluttered packing lines and stacks of boxes littering the floor.

Total Solution

- KDF Box Stand
- BEL 505 former
- BEL 150 sealer
- Accumulation table or Nestaflex

WFPS 5252 Combo

Case Packing & Sealing System

The 505 Semi-Automatic Case Former automatically folds all four bottom flaps, leaving the packer's hands free to pack products. This further enhances the ergonomics of loading hard-to-pack products by improving case handling. The BEL 252 case taper automatically folds the top flaps and seals with precision.

Total Solution

- KDF Box Stand
- BEL 505 former
- BEL 252 sealer
- Accumulation table or Nestaflex

WFPS 1252 Combo

Omni-Handed Form, Pack & Seal System

This system features Wexxar's latest innovation, the new WF10 Omni-Handed Case Former, and Wexxar's flagship sealer, the BEL 252 Fully Automatic Case Sealer. This system also features a three-foot loading and accumulation section, providing an all-in-one solution for Hand Pack lines.

Total Solution

- WF10 case former
- 3ft case conveyor for case packing
- BEL 252 sealer
- Nestaflex flexible delivery system

WFPS 2270 Combo

Fully Automatic Forming and Glue Sealing

The WF20H forms and bottom seals at 20 cases per minute, not only making use of Wexxar's patented Pin & Dome system, but also providing a swift changeover with Wexxar's trademark color-coded case size change. The BEL 270 fully automatic glue sealer not only provides quick and easy changeover but also provides operator safety.

Total Solution

- WF20 case former
- 3ft case conveyor for case packing
- BEL 270 glue sealer
- Nestaflex flexible delivery system

WFPS 3290 Combo

Fast, Flexible, and Continuous Forming and Sealing

New 2010 Model

The WF30 Case Former integrated with the Case Sealer has built-in features that help operators overcome common challenges with continuous industrial duty. Standard items such as the color-coded changeover, Flex Speed System, enhanced touch screen for monitoring operations at speeds of up to 30 cases per minute.

Total Solution

- WF30 case former
- 3ft case conveyor
- BEL 290 tape sealer
- Nestaflex flexible delivery system
